

Conférence Changement Climatique et Santé

Conference on Climate Change and Health Care

International Conference on Climate Change and Healthcare

Paris, 4th December 2015

Location: European Hospital Georges Pompidou

Programme

This event will bring together managers of healthcare facilities and community health professionals in France, as well as representatives of institutions in Europe, US, Asia, Africa and Latin America.

The event will be held in parallel with the negotiations at the UN Climate Conference.

Participants will showcase their strategies for reducing their carbon footprint and leadership in promoting policies that protect public health from climate change.

Co-organisers: Health Care Without Harm (HCWH), the French Hospital Federation (FHF) and the French Federation of Private Non-profit Hospitals (FEHAP). Supporting organization: Assistance Publique – Hôpitaux de Paris (APHP).
